

PERFORMANCE EVALUATION STUDIES

Chemistry

The Environmental Laboratory Accreditation Program (ELAP) is providing the following list of vendors of performance evaluation studies available to laboratories, that are certified or interested in certification for drinking water and wastewater fields-of-testing. The study series are Water Supply (WS) chemistry for drinking water matrices, and Water Pollution (WP) chemistry for wastewater matrices. Laboratories are directed to the California Code of Regulations, Title 22, Chapter 19, Article 5, section 64809, for participation requirements, and to Chapter 15, Article 5.5, sections 64444 and 64445.1, Article 16, section 64449, Article 17, section 64450, for updated Division of Drinking Water & Environmental Management (DDWEM) monitoring requirements of analytes in drinking water.

If you have questions, please contact Fred Choske at (510) 540-2800.

Microbiology

ELAP is providing the following list of vendors of performance evaluation studies available to laboratories, that are certified or interested in certification for microbiology fields-of-testing. The study series are Water Supply (WS) microbiology for drinking water matrices, and Water Pollution (WP) microbiology for wastewater matrices. Laboratories are directed to the California Code of Regulations, Title 22, Chapter 19, Article 5, section 64809, for participation requirements.

If you have questions, please contact June Kani at (510) 540-2800.
